

## **THE ADMINISTRATION OF NORFOLK ISLAND**

### **MEDIA RELEASE**

#### **Interim Arrangements For Disposal Of Builders Waste**

Interim arrangements have been put in place for the disposal of builders waste during the closure of the Waste Management Centre for accepting builder's waste or green waste.

The Minister for the Environment, Education and Social Welfare, Vicky Jack, met with the major building contractors on Monday, 23 February 2009 and it was agreed that these builders will co-ordinate with other trades for the disposal of trade waste.

Tradesmen requiring assistance with the disposal of trade waste should contact one of the following builders who will co-ordinate the disposal:

Brandt McRichie  
Trevor Gow  
Steve Ford  
Brendon Gardner  
Dennis Sterling  
Peter Swynenburg

The Minister welcomes the co-operation of all trades.

It is anticipated that the Waste Management Centre will be open to receive appropriately sorted builders' waste again by the end of March 2009.
